

# Orange Shop Gift Certificate

Pete and Cindy Spyke are third-generation citrus growers and shippers from Florida. Grandfather Spyke began the citrus business in the 1930's after a Navy career that included duty in World War I. The Spykes have always been passionate about growing the best-tasting fruit in our citrus groves that span from Davie, the southern end of Florida's citrus area, to Citra, which is as far north as citrus will grow, including Fort Pierce, the center of the famous Indian River Citrus Area.

Why is this important? Because all varieties of citrus are not the same. Grapefruit is sweeter and juicier when grown where the nighttime climate is warm and humid, the predominant summer condition in the Indian River and South Florida because of the warm Gulf Stream waters just offshore. Navel Oranges and Tangerines, on the other hand, like the cooler winters and warm, dry summers that are normal in Citra.

As a result, The Orange Shop ships more different varieties of high-quality citrus than any other shipper in the world. A bold statement, but completely true. What does this mean? The Orange Shop offers gifts that are completely unique. Our goal is to provide extraordinary flavor experiences for our customers and their friends and families with the most healthy food in the world.

The Orange Shop is located in Citra - the little town named after citrus that was the center of the Florida industry in the 1800's. While the main citrus industry has moved south to avoid freezes, which are common in Citra, The Orange Shop has persevered, and so the fruit we grow has no equal.

We hope you enjoy your gift of Florida Citrus, and welcome you to The Orange Shop family!
